

UltraSlim LED Strip Light

The Thinnest LED Strip Light Available

UltraSlim LED Strip Light is the thinnest LED strip light available in the industry. It is remarkably narrow, at only 3.5mm wide, yet maintains a rugged durability due to its high-quality construction. This is the optimal product for edge lighting glass and acrylic panels with thicknesses down to 1/4". Due to its width, this strip is easily concealable and can go where other strip light cannot. Its thin profile makes it great for use in projects that have tight mounting spaces. UltraSlim LED Strip Light is surprisingly bright, with a lumen output of up to 1,039 lumens per meter. This high-density strip light utilizes 120 LEDs per meter and allows for fantastic light diffusion. The 5 meter reels run on 24 VDC and are UL-Listed.

- 3.5mm wide
- 120 LEDs per meter
- Up to 1,039 lumens per meter
- Available in 2,700K to 6,500K
- UL-Listed

◀ Dimmable
