

HyperFlex LED Strip Light

Bendable LED Strip Light

HyperFlex LED Strip Light is an astonishingly versatile tape light that allows you to make tight turns on flat surfaces. This strip's circuit board features a unique design that allows it to bend, twist and turn in ways that regular LED strip light cannot. Gradual Arcs? Check! Right Angles? No problem! HyperFlex virtually eliminates the need to cut and reconnect the strip light when you need to alter the direction of your lighting run. HyperFlex LED Strip can follow the contours of just about any shape, making it the ideal solution for backlighting or illuminating sign letters or logos.

- Makes tight turns on flat surfaces
- 10 meter runs with no noticeable effects of voltage drop
- Brightness comparable to standard LED strip
- Available in 2,400K to 6,500K
- Fully dimmable
- UL-Listed

HyperFlex LED Strip Light
