"IMPORTANT SAFETY INSTRUCTIONS"

This Portable Luminaire has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.

"Caution" To Reduce the risk of fire, electric shock or injury to persons:
1. Use only insulated staples or plastic ties to secure cord.
2. Route and secure cords so that they will not be pinched or damaged when the cabinet is pushed to the wall.
3. Position the portable cabinet light with respect to cabinet so the lamp replacement markings are able to be read during relamping.
4. Not intended for recessed installation in ceilings or soffits.
5. "Not intended for surface or recessed installation inside built-in furnishings such as kitchen cabinets, china cabinets, or trophy cases."
6. The National Electrical Code (NEC) does not permit cords to be concealed where damage to the insulation may go unnoticed. To prevent fire danger, do not run cords behind walls, ceilings, soffits, or cabinets where it may be inaccessible for examination. Cords should be visually examined periodically and immediately replaced when any damage is noted.
7. For best results, have lighting professionally installed by a qualified Licensed Electrician.
8. The portable Cabinet Luminaire may be installed inside a kitchen cabinet or other built-in furnishing provided that the cabinet or built-in furnishing is provided with a dedicated receptacle and the line voltage cord is not concealed or routed through openings in the cabinet or furnishing.
9. Interconnection of fixtures must remain within the current rating and the maximum number of units in accordance with the table below:
