

LED Strip to LED Channel Compatibility

- Rules: For waterproof flexible strip, please refer to the Inside Channel Width (mm) for channel compatibility.
- no** If strip is wider than the inside width of the channel, the strip doesn't fit.
 - good** Fits, if the channel width is 100-150% of the strip width.
 - loose** Rather loose, if the channel width is more than 150% of the strip width.
 - too hot** Light bars should not be used with strip that consumes more than 12 watts per meter.
