

# 5-in-1 LED Light Sheet - 12 x 6 LEDS

## Five LEDs in Each Node

5-in-1 LED Light Sheets are an ideal solution for backlighting light boxes with 5-in-1 lighting. Each LED light sheet is extremely bright and thin. The light sheets each feature 12 cut segments that contain six 5-in-1 nodes, for a total of 72 nodes per sheet. Each segment is cuttable along its indicated cut marks, allowing you to create your own custom sizes. You can also link multiple light sheets together to cover greater surface area. This LED light sheet is easy to install with its high-adhesion 3M backing. Simply peel off the wax paper and stick it to any clean, dry surface. 5-in-1 LED Light Sheets are easy to control using any of our wired or wireless controllers or dimmers.

- 18 x 9 cut segments
- UL-Listed
- Modular
- Cuttable

# 5-in-1 LED Light Sheet - 12 x 6 LEDS

## Specifications

Output	5-in-1 LED Light Sheet - RGBTW - 12 x 6 LEDS	5-in-1 LED Light Sheet - RGBAW - 12 x 6 LEDS
	RGBTW-5050-LS-12x6	RGBAW-5050-LS-12x6
Brightness (lm/sheet)	215/375/85/480/580	175/495/120/150/710
Color temperature	RGB + Tunable White (2,400K to 6,500K)	Red, Green, Blue, Amber, 6,500K White
<b>Electrical</b>		
Voltage (DC)	24	24
Power (W)	30	30
