Parts needed to mount the JAZ extrusion

- Extrusion (A)
- LED strip (B)
- Hanger (C)
- Cover (D)
- End cap (E)

Tools needed for mounting:
- drill

**NOTE!** All LED strips must be connected to a 12 V or 24 V power supply.

**IMPORTANT:** The manual presents the simplest mounting procedure. More mounting procedures and related accessories can be found at klusdesign.com

www.KlusDesign.com
1. Drill a hole in the extrusion (A) to feed the power cable.

2. Mount the LED strip (B) in the extrusion.

3. Suspend the extrusion using the hangers (C) and a chosen suspension system. The hanger manual can be downloaded at klusdesign.com

4. Connect power to the LED strips. Insert the cover (D) and the end caps (E).
