

5-in-1 5050 LED Strip Light [RGB + Tunable White]

RGBTW-5in1-5050-60-reel, wp-RGBTW-5in1-5050-60-reel

PRODUCT DESCRIPTION

5-in-1 LED Strip Light [RGB + Tunable White] gives you the ability to create bolder colors than ever before, making it perfect for use in scenic, stage and retail environments. The 5-in-1 is five LEDs conveniently packaged in just one node, allowing for richer tones and cooler hues that were previously impossible to achieve with a single strip. In addition to containing an RGB diode, this strip also features both a 2,500K white and a 6,500K white diode to create any color temperature of white light between 2500K and 6500K. 5-in-1 LED Strip Light [RGB + Tunable White] is offered in both waterproof and non-waterproof versions allowing for both indoor and outdoor applications.

Ideal Application: 5-in-1 LED Strip Light [RGB + Tunable White] reduces the installation costs of having to run multiple LED strip lights to achieve a mixture of RGB and two white lights. This makes it perfect for scenic, stage and retail environments.

PRODUCT FEATURES

- 5 colors on the same node
- Seamless blending of RGB with Tunable White - 2,500K to 6,500K
- DMX controllable
- IP20 rated - Also available in IP67 [waterproof]
- UL Listed, RoHS Compliant
- Average Lifetime: 50,000 hours
- Warranty: 5 Year Limited

TECHNICAL SPECIFICATIONS

Light Color RGB + 2400K + 6500K	Wave Length 630/515/464 nm
Brightness (lumens/meter) 107/232/53/282/355 lumens/meter	Brightness (lumens/ft) 33/71/16/86/108 lumens/ft
Power (watts/meter) 18.5 Watts/meter	Power (watts/ft) 5.6 Watts/foot
Voltage 24 DC	Linkable Up To 16.40 ft (5 m)
Width 0.47 in (12 mm)	Length 16.40 ft (5 m)
Beam Angle 120°	LED Density 60 LEDs/meter
LED Spacing 0.66 in (16.7 mm)	IP Rating IP20, also available in IP67 [waterproof]
Min. Cutting Increment 3.94 in (100 mm)
