

6-in-1 LumenWash Light Bar RGBA+65K+UV, 1m 6in1-BTN-15-1m

PRODUCT DESCRIPTION

The 6-in-1 LumenWash Light Bar is a high-performance, ETL Listed, commercial-grade RGBA+65K+UV batten-style fixture. Engineered for precision, it produces vibrant colors that can be finely adjusted to achieve the ideal hue for any application. With an IP65-rating, this light bar is designed for durability, ensuring reliable performance in demanding environments.

DMX & RDM functionality enable simple integration into lighting consoles for precise control and remote addressing and monitoring. It includes a wide array of standalone functions from strobe effects to color fades. This light bar can produce dynamic lighting effects with ease, even without a console or controller. The intuitive OLED display allows for easy configuration.

Compatible IP65 Seetronic DMX and power cables are available for purchase to aid in installation.

For Outdoor Applications: Avoid installing this fixture with the rear panel facing upward in exposed outdoor locations. Doing so could result water to pool around the connectors and potentially damage the product. For installations requiring this configuration, we recommend consulting with your sales representative to explore suitable alternatives.

TECHNICAL SPECIFICATIONS

Product Number	6in1-BTN-15-1m
Ambient Temperature	-20°C to 45°C
Average Lifetime	50,000 hours
Beam Angle	20x30
Brightness	2,455 lm/fixture
Color Detail	Red, Green, Blue, Amber, 6500K, UV
Density	15 LEDs/fixture
Height	6.02 in [153 mm]
Input Current	2300 mA
Input Voltage	110 to 220AC
IP Rating	IP65
Linkable Up To	5 fixtures
Length	40.28 in [1023 mm]
Regulatory	ETL, CE, RoHS
Warranty	2 Years Limited
Width	6.1 in [155 mm]

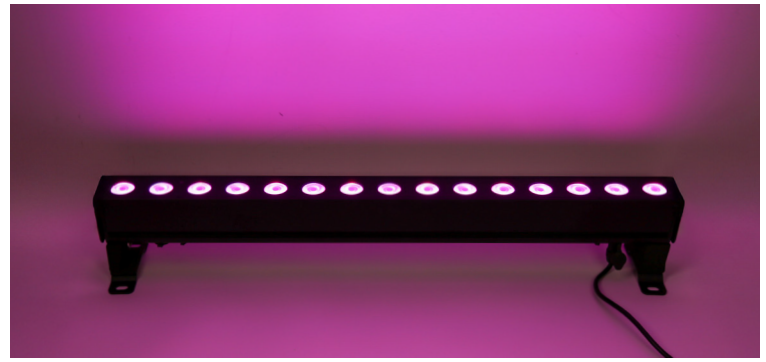

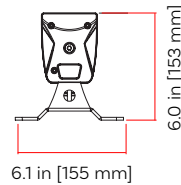

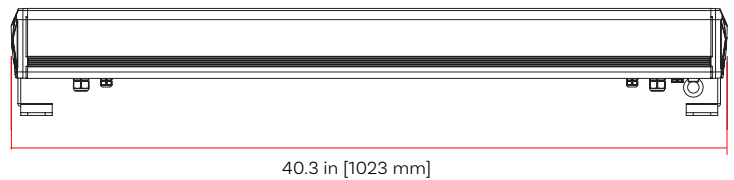

PRODUCT FEATURES

- ETL Listed
- IP65 waterproof
- 6-in-1 (RGBWA+UV)
- Intuitive OLED display
- DMX & RDM control
- Supports smooth dimming, strobe effects, and color fading

REGULATORY

- ETL, CE, RoHS
- Warranty: 2 Years Limited

CONNECTORS & ACCESSORIES

Product	Description
Seetronic 5-Pin XLR Extension Cable - 1m <i>BTN-XLR-5P-EXT-1m</i> 	This Seetronic 5-Pin XLR Extension Cable is standardized and compatible with our 6-in-1 LumenWash Light Bar. Featuring an IP65 rating, this cable is designed to transmit data in demanding environments. It is one meter in length.
Seetronic 5-Pin XLR Extension Cable - 3m <i>BTN-XLR-5P-EXT-3m</i> 	This Seetronic 5-Pin XLR Extension Cable is standardized and compatible with our 6-in-1 LumenWash Light Bar. Featuring an IP65 rating, this cable is designed to transmit data in demanding environments. It is three meters in length.
Seetronic Power Extension Cable - 1m <i>BTN-PWR-EXT-1m</i> 	This Seetronic Power Extension Cable is standardized and compatible with our 6-in-1 LumenWash Light Bar. Featuring an IP65 rating, this extension cable is designed to withstand demanding environments. It is one meter in length.
Seetronic Power Extension Cable - 3m <i>BTN-PWR-EXT-3m</i> 	This Seetronic Power Extension Cable is standardized and compatible with our 6-in-1 LumenWash Light Bar. Featuring an IP65 rating, this extension cable is designed to withstand demanding environments. It is three meters in length.
Seetronic to Edison Power Input Cable - 1.8m <i>BTN-PWR-1.8m</i> 	This Seetronic to Edison Power Input Cable is standardized and compatible with our 6-in-1 LumenWash Light Bar. Featuring an IP65 rating, this cable is designed to provide a safe and reliable power connection in demanding environments. It is 1.8 meters in length.
