

Continuous LED Strip Light

UL Listed, Chip On Board (COB)

Continuous LED Strip Light is a new style of strip light that utilizes chip on board LEDs to create one diffused line of light. It is ideal for use around reflective surfaces, such as marble floors and countertops, because it eliminates the dots seen with standard SMD LED strip light. It also enables designers to use diffused light in tight spaces where standard channel systems wouldn't be ideal.

- UL Listed and RoHS
- Hotspot-free appearance
- Durable, flexible and low profile
- Available in CCTs of 2700K, 3000K, 3500K (custom order), 4000K, 5000K and 6500K
- Fully dimmable
- 24 VDC
