

4-in-1 5050 LED Module

Red, Green, Blue and 6,500K

4-in-1 5050 LED Modules are a great choice for backlighting channel letters and light boxes with RGB and 6,500K lighting. Each LED module is waterproof and UL Listed. 4-in-1 is just that; 4 LEDs conveniently packaged in one node. Combining RGB with 6,500K white allows for tones and hues that were previously impossible to achieve with a single module. This module contains three 4-in-1 nodes and have a lightweight plastic housing. They are made in sets of 50 modules per string but are sold per module.

- IP67 Rated
- Versatile design
- Four colors per node
- UL Listed and RoHS Certified
- Seamless blending of RGB and 6,500K daylight white

4-in-1 5050 LED Module

Specifications

Output	4-in-1 5050 LED Module - RGB + 6,500K - 3 LEDs
	EL-M5050-3-RGBDW
Brightness 1 (lm/module)	7/17/4/25
Electrical	
Voltage (DC)	12
Power (W/module)	0.96
Density (LEDs/module)	3
Input Current (mA)	80
LED Node Size	5050
Beam Angle	120°
Light Color	Red, Green, Blue, 6,500K White
Physical	
Length (m)	72.5
Width (mm)	16.4
Height (mm)	8.6
Rating	UL Listed, IP67, RoHS
Warranty	3 years limited
