

HyperFlex Strip Light [Tunable White]

TW2465-2835HF-60-12-5m

SYSTEM DESCRIPTION

LED Strip Light is an incredibly versatile tunable white strip light that allows you to make tight turns on flat surfaces. This strip light enables users to customize the color temperature of white by mixing 2400K with 6500K.

This strip's circuit board features a unique design that allows it to bend, twist and turn in ways that regular LED strip light cannot. HyperFlex Tunable White 2835 LED Strip Light can be used to make turns up to 90 degrees. It virtually eliminates the need to cut and reconnect the strip light when you need to alter the direction of your lighting run.

Ideal Application: HyperFlex Tunable White 2835 LED Strip light is ideal for applications where you need to make tight turns on flat surfaces. It is perfect for cove lighting, backlighting or illuminating sign letters or logos.

PRODUCT FEATURES

- Bendable on both vertical and horizontal axis
- Mix 2400K with 6500K
- 5-meter run lengths
- UL Listed, RoHS Compliant
- Average Lifetime: 50,000 hours
- Warranty: 5 Year Limited

TECHNICAL SPECIFICATIONS

Brightness (lumens/meter) 588/736 lumens/meter	Brightness (lumens/ft) 179/224 lumens/ft
Power (watts/meter) 18 watts/meter	Power (watts/ft) 5.5 watts/ft
Voltage 24 DC	Correlated Color Temperature 2400 - 6500K
Efficacy (lumens/watt) 73.6 lumens/watt	Color Rendering Index 90+
Beam Angle 120°	Linkable Up To 16.40 ft (5 m)
Width 0.47 (12 mm)	Length 16.40 ft (5 m)
Min. Cutting Increment 3.94 in (100 mm)	LED Density 60 LEDs/meter
LED Spacing 0.66 in (16.7 mm)	IP Rating IP20
