

RGB XXL PixelControl LED Strip Light

Do More With Pixel

RGB XXL PixelControl LED Strip Light enables you to do more with pixel. With six RGB LEDs per pixel, you can achieve over 55 feet (17 meters) in one DMX universe, making it easier to produce animated effects with long run lengths. Our highly skilled product engineers developed RGB XXL PixelControl to overcome the creative challenges of scenic and stage environments, while also reducing the number of control channels needed for large-scale designs.
