

# MicroMax VLM LED Driver

## Small Drivers

The UL Listed Constant Voltage Driver is the smallest LED driver available that can power up to 60W of 12 VDC or 96W of 24 VDC LED lighting. It is a fantastic choice for use with on/off switches. This hard-wired driver has a small footprint and is incredibly efficient. It can accept 120 VAC to 277 VAC, so it can work in larger facilities with commercial voltage. It is ready to meet your low-voltage LED lighting needs with its full capacity 60W or 96W output, meaning you can power 60W@12VDC or 100W@24VDC of lighting without derating your power supply. It can be placed inside a cove, light fixture, SEG frame or lightbox to power your lights discreetly. It is UL listed and meets the rigorous standards for Class 2 installations.

- Small footprint
- Accepts 120 to 277 VAC
- Full capacity
- UL listed
- Designed to dissipate heat

## Specifications

	MicroMax VLM LED Driver - 12 VDC - 60W	MicroMax VLM LED Driver - 24 VDC - 96W
	VLM60W-12	VLM100W-24
Power (W)	60	96
Finish	Silver	Silver
Length (mm)	144	151
Width (mm)	19.85	26.2
Height (mm)	19.95	19.85
Input Voltage (V)	120 to 277	120 to 277
Output Voltage (V)	12	24
Input Current (mA)	700	1,050
Rating	UL, CUL, FCC, CE	UL, CUL, FCC, CE
Warranty	5 year	5 year
