## D-SPLIT

Opti-splitter for DMX512 distribution

D-SPLIT is an optical isolator/splitter for DMX512. Its purpose is to allow the user more flexibility in connecting their DMX controlled devices.

## D-SPLIT

### The perfect accompaniment to DMXIS

Instead of having to make them all fit within a single daisy chain, each of the four outputs from the D-SPLIT can be the start of its own chain, and multiple D-SPLITS can be linked together if needed.

#### ► Features

- Lightweight and portable
- 1 input and 4 outputs, all optically isolated
- DMX512-1990 compatible
- Control up to 512 channels
- LED indicators show power and DMX output
- External 7V power supply
- **D-Split** has two 5 pin and two 3 pin outputs for greater flexibility
- **D-Split (5 PIN)** has four 5 pin outputs

#### ► Functional Specifications

- DMX output 5 pin XLR & 3 pin XLR
- All four may be used simultaneously, or any combination
- **1000V isolation between input and output, and between any individual output receptacles**
- This is to protect your console from surges on DMX line, and also keep any stray voltage from crossing to other DMX chains

#### Dimensions

H53mm / W115mm / D85mm  
H2.08" / W4.5" / D3.4"

#### PART NUMBERS

70575 - D-SPLIT all 5pin out

70572 - D-SPLIT 3pin and 5pin out mix

#### ► Applications

- Small theaters
- Solo musicians / bands
- Djs
- Places of worship
- Churches...
