

PowerChain LED Power Adapter

Daisy Chain Multiple Drivers

PowerChain adapters have an integrated 120V AC output which enables the user to daisy chain multiple PowerChains together. This unique design enables multiple PowerChain adapters to be connected off one power outlet without the need for extra extension cords. Each driver can power 60W of LEDs. Daisy chain up to 10 PowerChains while still maintaining the standards for UL Class 2 installations.

- Max capacity of 60W
- Linkable up to 10 adapters
- UL listed Class 2 power supply
- Integrated connector

PowerChain LED Power Adapter

Specifications

	PowerChain LED Power Adapter – 12 VDC – 60W	PowerChain LED Power Adapter – 24 VDC – 60W
	POWERCHAIN-60W-12	POWERCHAIN-60W-24
Power (W)	60	60
Finish	White	White
Length (mm)	220	220
Width (mm)	58.3	58.3
Height (mm)	31.4	31.4
Input Voltage (V AC)	120 or 240	120 or 240
Output Voltage (V)	12	24
Output Current (mA)	5,000	2,500
Rating	UL Listed, CUL Listed	UL Listed, CUL Listed
IP Rating	IP20	IP20
Warranty	1 year	1 year
Primary-Side Connector	3-Prong Edison Plug	3-Prong Edison Plug
Secondary-Side Connector	3-Prong Edison Plug and Barrel Plug	3-Prong Edison Plug and Barrel Plug
