

LED Puck Light

Recess-Mounted Down Lighting

LED Puck Lights are an easy-to-use, dimmable and reliable solution for large and small scale recessed downlighting installation. Powered by low-voltage 24 VDC, the puck lights may be chained together in long runs without voltage drop. For large installations, our LED PowerTrack System and up to 40 Recess Mounted LED Puck Lights can be powered from a single driver for an ETL class 2 installation.

- Energy Efficient— only 1.8 watts per puck
- ETL Listed
- 48 inch cable with female DC barrel power input
- IP65 rated and suitable for damp applications indoors or outdoors
- Perfect for retail displays, trade show exhibits and display cabinets
- Easy to install and may be used for a variety of downlight applications
- Available in 3,000 K, 4,000 K and 5,600 K
