

# Waterproof DMX Decoder

## DMX for Outdoor Use

Create eye-catching lighting effects, indoors or out, with this Waterproof DMX Decoder. This takes the DMX output from any standard DMX console or controller and decodes the signal, so you can drive LED lighting. It features 4 channels of input, with a max of 5 amps per channel, allowing you to use it with anything from single color LED lighting to color-changing RGBW LED lighting. It has a vivid digital display that enables you to set your DMX address with ease. With an IP67 rating, it is water and dust resistant. Additionally, it comes with sealed leads for both input and output. It is compatible with 12 and 24 VDC and features overheating and overcurrent protection.

- Supports 4 channels x 5 Amps
- Digital Display
- IP67
- Sealed Input/Output Leads
